

PSII Exam Period Schedule - June 2017

Exams **highlighted in yellow** are required only for learners who were enrolled in and completed the associated course **before June 2016** and are writing the exam for that course for the first time, or if they are re-writing an exam in a course that they have previously completed.

As of the 2016-17 school year, there are no Grade 10 or 11 exams for those completing Grade 10 or 11 courses this year for the first time.

The old grade 10 exams (Science 10, English 10, and Math 10) have been replaced with a Literacy exam and a Numeracy exam that are to be taken at some point in each learners graduation program years (i.e. Grades 10 to 12). These government exams will be implemented in the 2017-18 school year by the Ministry of Education. So learners in grades 9 and 10 this year will take these exams in the coming year or two, on a schedule dictated by the Ministry.

School-based assessment times will be scheduled for each learner on an individual basis, and some will have taken place before the examination period (i.e. before June 22). PSII learners attend school during the exam period only when scheduled for an exam or for a school-based assessment meeting.

The last day of regular instruction for the year is **Wednesday, June 21**.
